1. OUR SERVICES

Civil Engineering Projects

Plant & Equipment Hire Services

General Building Construction

Electrical Engineering

Technical & Industrial Services

2. OVERVIEW

LUCAZI was established in 2011 with a vision of creating a justly mainstream black empowerment, multidisciplinary construction services and turnkey developments. The company was established with a mission to provide multi engineering and plant and equipment services, aligned with the Government's broad vision and policies for the development of previously disadvantaged Individuals (POI) communities.

LUCAZI is rapidly growing to become a truly empowered construction company in South Africa. The Company has a total staff complement of 202 at the moment as is increasingly growing the numbers. The Company is accredited with Construction Industry Development Board (CIDB) ratings of **8 CE PE, 7GB PE, 7ME PE, 7SB PE and 7EP PE**

VISION

LUCAZI has a vision of becoming a CHAMPION AMONGST CONSTRUCTORS in the fields of multi discipline engineering, Plant hire and project management.

VALUES

LUCAZI endeavors to remain true to its founding values of quality, commitment, hard-work and integrity in all the projects, and to be a goal oriented and people centered company that strives for excellence. The values will allow LUCAZI management to pro-actively measure performance and adapt new strategies that will align with the Vision of the company.

LUCAZI places great emphasis on attracting and retaining highly-skilled senior and middle management staff. The Company follows a consultative process with its employees at all levels on matters affecting them in their work environment. It is an equal opportunity employer and no discrimination is made because of race, gender or creed. LUCAZI is also committed to a policy of Affirmative Action whereby the company is charged with the responsibility of uplifting the previously disadvantaged segments of our community and for providing training to our employees so that they can develop to their full potential.

COMPLIANCE / PROFESSIONAL AFFILIATIONS

7. COMPANY STRUCTURE

NAME & QUALIFICATIONS	EXPERIENCE
Nomsa Malimabe Chief Executive Officer BSC (Hons): Management of Technology BTech: Civil Engineering (Construction Management) NDip Civil Engineering	Nomsa is the sole owner and Chief Executive Officer of Lucazi Pty Ltd. She has over 20 years experience in the built environment field. She started her career as an Industrial Technician at the then Department of Water Affairs and Forestry. She later moved to Ehlanzeni District Municipality and was appointed as Civil Engineering Technician. During this time she was exposed to projects related to Municipal services, such as roads and stormwater, municipal buildings (community halls, taxi ranks, and etc.) and water and sanitation projects. After she moved to City of Ekurhuleni as an Engineer Operations, she was promoted to a Senior Project Manager and ultimately a Chief Area Engineer responsible for revenue enhancement. Nomsa is driven by strategic thinking, thereby ensuring that the company's business plan supports an overall vision. Her strong leadership also ensures that the team delivers on the company's key objectives of understanding and meeting clients expectations.
Kgomotso Nchelang Executive Director Support Services BCom Accounting	Kgomotso has over 35 years experience in finance. She has worked for North West departments of Public Works and Water Affairs & Forestry, North West Water Supply Authority, Denel Properties. Before joining Lucazi Pty Ltd in 2015 she was an Acting Chief Financial Officer of Ngaka Modiri Molema District Municipality in North West. Kgomotso is now responsible for all financial and administrative functions of Lucazi Pty Ltd, including human resource management. Her strong ability to multi-task allows the company to respond efficiently and effectively to the many varied demands placed on it.
Katiso Molapo Executive Director Technical Services MSc in Engineering (Structural) BSc in Engineering (Civil) BTech Engineering (Structural) NDip Civil Engineering	Katiso is a qualified Civil and Structural engineer registered as Candidate Engineer with ECSA. He has over 16 years combined experience in hydraulic and structural design, landfill audits, manufacturing, general management, quality assurance, engineering consultancy, construction, sales & marketing, research & development. He is also serving as external examiner for MSc Engineering at Stellenbosch University. He has completed designs of two circular concrete reservoirs for City of Ekurhuleni. One of the two reservoirs is nearing its completion at Impala Park in Boksburg. He was also recently invited to be a member of the SABS Subcommittee TC98/SC02 whose task is to develop a new standard for Liquid Retaining Structures in South Africa (SANS10100-3). He is also preparing his submission for registration as Professional Engineer. Katiso is very passionate about sustainable development.
